RE: Reported Site Disturbances in Uintah County

Three areas were reported to have recent disturbances on site. These areas are:

1. Wasatch Tar Sands (John Fairbanks--operator)
2. The Asphalt Ridge - White Rocks Deposit
3. Green River site by the log cabin at the Deseret Generation Plant (Jean Dalton--operator)

The Wasatch Tar Sands area was inspected in May 1984. The Memo to File (May 24, 1984) stated that there is confusion about the DOE status of this property. Regardless, the present disturbance reported included opening of more faces, setting up tanks, cement mixers and selling of the product to Staker Paving which may be over the two acre exemption.

It would probably be worthwhile to send someone to check this area out soon.
